SUPERIOR UNIVERSITY

Ref.: SU/SA/26/21731

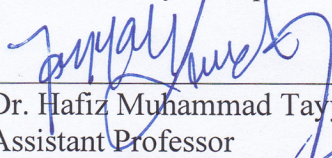

Date: April 2, 2026

REFERENCE LETTER

I am pleased to recommend my student, **Muhammad Babar**, for admission to your graduate program; as a Lecturer and AI Researcher with a PhD in Computer Science specializing in Deep Learning and an **IBM Certified AI Engineering Professional**, I have had the opportunity to mentor him in specialized areas of **Machine Learning, Data Warehousing, and Emerging Technologies**. In my courses, Babar consistently demonstrated a high level of academic excellence and technical curiosity, securing an **'A' grade in Machine Learning** while showing a deep interest in the practical application of data-driven systems and complex architectural design. **He** truly distinguished himself through his technical contributions to the development of an **Agentic ERP System**, where he applied sophisticated concepts of Natural Language Processing (NLP) to automate campus management and streamline administrative operations.

Given my own background in **Agentic AI** and **Retrieval-Augmented Generation (RAG)**, I was particularly impressed by his ability to integrate these emerging technologies into a functional platform that supports automated content generation, academic forecasting, and the integration of **Data Warehousing** principles for centralized data management. He successfully architected this solution with a methodical approach that reflected a level of technical maturity required to handle the complexities of modern AI engineering, large-scale data pipelines, and intelligent systems. Beyond his technical proficiency, he is a pleasant and well-mannered individual with high moral and social values who is regular in completing his assignments and has shown a remarkable capability for hard work.

Babar possesses excellent communication skills and the professional integrity essential for success in competitive international graduate studies; his proactive nature and superior intellectual ability make him an ideal candidate for further academic attainments. I am confident that he will do extremely well in his graduate studies and contribute meaningfully to your academic community; therefore, I recommend Muhammad Babar for your esteemed university with high distinction. Please feel free to contact me if you require any further information regarding this applicant.

Dr. Hafiz Muhammad Tayyab Khushi
Assistant Professor
